

HVAC Supply, Contracting & Maintenance

**IMEC Electro
Mechanical Engineering**
P.O. Box 6565, Sharjah, U.A.E.
Tel. : 00971 6 5568366 / 5568466
Fax : 00971 6 5568626
E-mail : imec@emirates.net.ae

IMEC is a premium HVAC supplier, contractor and maintenance provider in the field which was founded back in 1973 in the Gulf region specializing in engineering, supply, installation, testing, commissioning and maintenance, and well established in the UAE since 1982 with our head office based in Sharjah. IMEC has since become a leading company with some of the most prestigious project references in the region. IMEC continue to grow and develop with a solid foundation and are well positioned for the long future ahead.

IMEC incorporates the most professional team in the field to cater fully to the client's A-Z scope of work related to HVAC, from engineering, procurement, supply, installation, testing and commissioning, towards operations and maintenance later in the life cycle of the project. IMEC works hand in hand with the end users, consultants, contractors and manufacturers from design and engineering, sales, procurement, supervising, installation, testing & commissioning, towards the long term operation and maintenance service of the project. IMEC provides the highest quality on the project insuring full compliance to the project requirements, from adherence to project schedule, specifications, drawings, safety site compliance, to successful performance and operation at site.

IMEC Quality Assurance & Quality Control (QA/QC) policy insures that the supply and installation workmanship at site is properly monitored and inspected by our experienced team throughout the project construction phase and beyond to insure full compliance to the project specifications and highest quality delivered on the installed and running products. Our IMEC Quality Assurance method is a systematic and proactive approach aimed at circumventing any issues from happening and optimizing the processes throughout the construction project life cycle. IMEC Quality Control method insures that proper inspection and testing of the supplied products is done in a timely manner and any potential issues are identified and corrected in advance which not only insures quality work at site, but timely completion of the project as well. This is accomplished through proper planning and monitoring of the project from start to completion stage.

IMEC's wide experience as a premium well established supplier of major mechanical HVAC & Plumbing products gives our company an important edge over other HVAC contractors, with our deep knowledge and expertise on the supply side of the HVAC and Plumbing products from design, supply, installation towards operation & maintenance.

Our reputation and integrity in the HVAC field is impeccable. Our clients include all the major end users, consultants, contractors and FM providers. Feel free to contact our office should you require any of our assistance on any of our IMEC HVAC scope of work, and we would be pleased to be of any further assistance.

Very Truly Yours,

A handwritten signature in blue ink, appearing to read 'Aslan Al-Barazi', written over a white background.

**Aslan Al-Barazi,
Managing Director-IMEC.**
